

Letter for the English

Thank you Everyone for your Support.

I hope this letter finds you well Dear and Brave Man and Woman of Britain.

I have this message for you. It's simple. Charles must go and William should not be King.

My proposal is a New State. The name of that state would be British-English-Saxon Empire.

Why a new name ? Simply because the current social contract has been shattered up to the point that cannot be fixed.

My proposal to you ,we cannot fix what has been broken . We must rebuild. It is quicker and cheaper than parching and duck-tapping.

The first benefit would be that any citizenship & passport ever issued by the corporation of the United Kingdom of Great Britain.ltd. would be voided , null.

Therefore England will be Independent.

The signatories of the Referendum for the Constitution and New Head of State will be the Founders' Fathers and Mothers of the New State.

They will reclaim their rightful Rights and Legitimate Inheritance of England (England) and English citizenship for any English person of English stock by blood, name, inheritance and right of birth which this one would be worldwide . This is because England should be bigger because a White Australian, New Zeelander, Canadian or anyone who lives in Guernsey, Jersey, Falkland and any other parts of the world and who bears the name of John, Michael, Elizabeth, Mary, are all English and England is everywhere English lives and are still majoritarian.

No foreigner can be elected in any position of power upon any Native People.

Why ? The 1st reason is concerning national security.

Let's take an example :

You elect a foreign person from another country from a different culture but moreover from a DIFFERENT SET OF RULES and SYSTEM OF LAWS.

Now please pay attention to this.

If a foreign person with access to public funds and decisions over public funds will start embezzling, stealing billion of pounds from the tax payers money, committing espionage , sabotaging the National Economy endangering lives of millions of Native English, Scotts, Welsh, Irish and other Natives (Kernow, Manx) then if he flees back in his own country have you questioned yourself if Britain has any extradition agreements in those countries and for which crimes ?

Well, here's the surprise. Britain has extradition agreements only for common crimes that are pretty much the same in those countries too ; like murder, terrorism , cyber crimes , fraud, child support etc. but with some countries economic and financial criminality is not often included like scams but in almost all of the extradition agreements between Britain and the Rest of the World” NO CRIMES IN PUBLIC OFFICE ARE INCLUDED !”

Why ? Because there are No Foreign citizens allowed in Public Office by LAW in any of these countries.

My proposal is concerning a New Role for the Monarch. The Institutional Monarchy based on a Constitution made for the People of the Realm , accepted by them , on their consensus and their vote. I myself wrote the first 111 Articles of the Popular Constitution of England. The Article 111 says that the Citizens of England can propose further Articles if they have problems or they demand enhanced rights and protections . This is my new proposal & system based on freedom, consensus , democracy and Native Values.

My future role & job will be to protect the Constitution , by law I should not represent the country externally , I should not have access nor decision upon any public money, I should not meet foreign leaders in any official duty.

My formal role will be as The Prime Civil Servant for the People of the Realm ,Head in Chief of The Civil Service, under the Oath of Constitution and the Authority of the True Church of English People the Church of England.

The Constitution will hold power upon any Elected Government Nationally and Locally.

Parliament and Monarchy will be Separated Powers into the State.

The Institutional Monarchy is a Popular Constitution made by the People of the Realm to protect and represent the People of the Realm, their country and their interests.

Kind Regards,

Daniel I.
